

May 26, 2016

President of the United States of America Barack Obama

Since Saturday, May 21, 2016, 1471 people have signed on to a letter, which United for Peace and Justice promised to deliver to you.

Here is the letter they signed:

Dear President Obama,

The U.S atomic bombings of Hiroshima and Nagasaki in August 1945 indiscriminately incinerated tens of thousands of children, women and men in an instant. By the end of 1945 more than 210,000 people - mainly civilians, were dead. Over 90% of the doctors and nurses in Hiroshima were killed or injured by the bomb. The surviving hibakusha, their children and grandchildren continue to suffer from physical, psychological and sociological effects of the bombings. Health effects caused by genetic damage to future generations are still unknown. Today more than 15,000 nuclear weapons, most of them orders of magnitude more powerful than the Hiroshima and Nagasaki bombs, 94% held by the U.S. and Russia, continue to pose an intolerable threat to humanity. Yet no disarmament negotiations are underway or planned.

Last year The Bulletin of the Atomic Scientists moved the hands of its Doomsday Clock to three minutes to midnight citing the “extraordinary and undeniable threats to the continued existence of humanity” posed by “unchecked climate change, global nuclear weapons modernizations, and outsized nuclear arsenals,” and the failure of world leaders to act.

Seven years ago in Prague, you raised the hopes of people around the world when you declared: “[A]s the only nuclear power to have used a nuclear weapon, the United States has a moral responsibility to act.... So today, I state clearly and with conviction America's commitment to seek the peace and security of a world without nuclear weapons.” But to the contrary, under your leadership, the U.S. is planning to spend one trillion dollars over the next three decades to modernize every nuclear warhead type in its arsenal, and to upgrade and replace their delivery systems – submarines, land-based missiles, and bombers – for the foreseeable future.

As the first sitting U.S. President to visit Hiroshima you have an historic opportunity to demonstrate the moral responsibility you claimed in Prague. To this end:

We call on you to meet with hibakusha and listen to their painful and horrific testimony. Instead of seeking revenge, these courageous hibakusha have dedicated their lives to the elimination of nuclear weapons so that no one else should ever experience the hell on earth they survived.

We call on you to acknowledge that the atomic bombings of Hiroshima and Nagasaki were immoral and illegal, and to pledge that the United States will never again use nuclear weapons under any circumstances. But these words must be accompanied by bold action. Therefore:

We call on you to initiate without delay a process to negotiate in good faith the early elimination of nuclear weapons, as required by the Nuclear Nonproliferation Treaty, which entered into force in 1970.

We call on you, as a demonstration of good faith and a concrete interim step, to dramatically

reduce the U.S. nuclear arsenal and urge Russia to do the same, as use of even a fraction of existing arsenals could cause nuclear winter, resulting in severe climate change leading to global famine.

We call on you to cancel the \$1 trillion, 30-year program to upgrade the U.S. nuclear arsenal and overhaul the nuclear weapons complex, and to redirect those funds to meet human needs.

Mr. President: Actions speak louder than words. Don't go to Hiroshima empty-handed. The whole world will be watching.

Sincerely,

You can view many of the petition signers and the comments they left below.

Thank you.

It is difficult to imagine why a man who won the presidency talking about the end of nuclear weapons, who won a Nobel Peace Prize for the promise, and who at the last moment--in a frightened world full of weapon-hungry madmen--is finally traveling to the city destroyed by the only military use of those weapons so far, ours, would not "have time" to visit the hibakusha. You do not have time to put that off. You promised us. You have 6 months left to make good on that promise, and justify that Nobel Prize.

An apology is not needed and cannot change the past. What is essential is to assure that nuclear weapons will never be used again. This can only happen if we abolish them! President Obama, you can take steps to begin that process. Take weapons off hair-trigger alert. Stop the absurd expenditures on "modernizing" the nuclear infrastructure.

Hello Mr. President. While I do not believe that nuclear weapons are the most important issue in the world today, I do believe that our relationship with the world is very important. When you were campaigning for president, I was compelled by your powerful speeches. But it was not the cleverness of your argumentation that drew me in, it was the moral correctness of the thinking that went into them. They were what was needed at the time. I guess that the presidency and facts that you were not aware of before have changed you. I hope that nothing else has. Because there are truths and then there are truths that bring us away from the path that we should be on because our perspective is not broad enough. I wonder if the presidency would change me as it changed you. I am loyal to life and because I live on Earth, I am loyal to earthlings. Because I am human, I am loyal to humanity. And because I am an American, it is the American people to whom my sense of loyalty goes. I have always been loyal. I find this to be a good thing, but perhaps my faith in others was not. As my perspective becomes broader, I am able to see life more clearly and make better decisions. I do not know what to make of this letter. Maybe you do?

Sincerely,
Erik Batoog

In the early 80s I took my mom to Hiroshima, especially to see the Abomb museum. It transformed our relationship and she then understood why I was dedicated to work for the elimination of nuclear arms. President Obama, for your and all the world's children, please take the time to visit the A-bomb museum. Please return to your commitment to reduce the USA nuclear arsenal. Without some momentum on your part in these last few months of your presidency the world has little hope for progress in the near future.

For peace with justice and gender equality,
Jill Sternberg

541. Jim Steitz (*zip code: 37737*)

You have advocated a goal of one day eliminating nuclear weapons, an existential hazard that could annihilate our civilization in one calamitous day. Your nuclear weapons modernization program is irreconcilable with this goal. This weapon will embolden and entrench the nuclear weapons industry and its associated constituencies at home, while sending a clear message internationally that security via nuclear weapons is here to day, and that disarmament would be a unilateral folly. For the world to untie this knot of collective action and shared security, the strongest nation must lead by ramping down its nuclear arsenal, not upgrading it for another century of nuclear-umbrella deterrence. I urge you to remove the B1 refurbishment, the new nuclear-capable missiles, and all other components of the 'Nuclear Weapons Forever' agenda currently endorsed in America's defense plans.

Dear President Obama, I was in Hiroshima in 1977 and went to the museum there. I will never forget the images I retained from that visit. One of them was the shadow of a person forever imprinted on a

piece of concrete. It was from vaporization -poof- gone in a flash. A life. Unsuspecting and innocent. I think we have moved to a place where the practice of restorative justice has demonstrated an effective means of healing - even when the most atrocious crimes have been perpetrated. You as a leader, from Chicago, a place where violence has driven hundreds of thousands to leave the city- You can demonstrate that there is a way to start healing by apologizing and ending the macho posturing that rules a lot of foreign policy. This would be a good addition to your legacy. ps. while you are at it free Leonard Peltier

My life in Liberal Klans Oregon!!

Arab/Muslim Americans are treated less than animals! We are called Sand N...

We are being prosecuted in a daily basis! High tech lynching, institutionally racism! Especially for Arab women!!

Oregon former late A.G. Dave Frohnmayer had my SS# blocked & prevented me from getting employed, made me homeless and jobless!

He was the one who started & initiated the fraud of taking over our homes!!

His bank robber Rep. Bob Ackerman, Doug McCool and Margaret Hallock hired Scarlet Lee/Barnhart

Associates, forged my family's signature, gave our fully paid Condo to the thief Broker Bob Ogle. And his mom Karen Ogle " who was working in the USA Consulate in Jeddah, Saudi Arabia 1997-1999 & administered the power of attorney to have my sister signed it and add her son to the deed," without my signature!!

Bob Ackerman had never responded to the Summon from the Court, and the sheriff never served him or arrested him either!!

This is what kind of criminal government we have in Oregon!!

I ran five times for public offices! Voter Fraud & Sediton by Lane County government to protect & cover up for the two criminals Frohnmayer & Ackerman!!

Oregon government is complicit with their crimes!!

Which America? Can those who love our country despite the shame and despair of having caused so much death and destruction in Hiroshima and Nagasaki tolerate a visit by our elected President to that site that does not include bodily and verbal gestures of humility toward the hibakusha, the survivors of our 1949 bombings of 1945, meeting them in person and asking them to tell their stories, and following through with action to cancel the \$ 1 Trillion "modernization" planned? Please, please, President Obama, this is your chance. Thank you.

Resolving climate change challenges and creating world wide refusal to use or further develop nuclear weapons is the foundation for a future for our children and grandchildren. We need to take giant steps to lead the way.

940. Paul Arpaia (*zip code: 15701*)

Please, please make history again by meeting with the survivors. It will be remembered on the level of Reagan's visit to Bitberg in 1985. Despite attempts at making the visit into a controversy, Reagan and Kohl bravely made it, instead, a symbol of Germany's and America's deep friendship. And, that friendship sealed by a controversial visit to a WWII site still benefits us today.

It would be the right thing to do.....meet with the survivors and hear their courageous story. Instead of hating they work for elimination of the nuclear threat as you should be doing.

993. Ralph Timberlake (*zip code: 35810*)

COMPLAINT AGAINST THE UNITED STATES POSTAL SERVICE

The right to due process and A HEARING FOR ADVERSE ACTION'S UNITED STATES POSTAL SERVICE'S VICTIMS

Numerous kakistocraical USPS officials decreed the perpetual banning of First-Class Mail property delivery services to 2117 Atkins Drive, Huntsville, Alabama 35810; they continue their injunction while denying Property Owner Timberlake, his lawful requests for evidence and an impartial hearing. Conversely, the USPS officers unceasingly abridge Property Owner Timberlake's right to receive USPS property mail delivery services; their illegitimate actions are a crime of fraud, malfeasance, etc. Regardless, a plethora of USPS bureaucrats illegitimately rebuffed this adverse party's official solicitation for a copy of their lawful reasons, and their legitimate justification for their denial of services. Yes, their unilateral decisions to return Property Owner Timberlake's mail to its senders are a gross wrong, a forthright travesty of due process of law, and a wanton injustice.

Notwithstanding, USPS officials rebuff Property Owner Timberlake's demands for an impartial hearing regarding the USPS' perpetual suspension of property mail delivery services, for his property. In light of their egregious proscription of Property Owner Timberlake's rights and privileges to receive USPS property mail delivery services, he submits this application for a lawful criminal and a lawful civil investigation. Thus, he seeks to know the lawful reasons the USPS personnel subjects 2117 Atkins Drive, Huntsville, Alabama 35810's and Ralph Timberlake's First-Class Mail to their capricious encumbering whims. Accordingly, several USPS representatives have taken the unauthorized aforesaid actions and the harmful denial of property mail delivery services; they undertook the above-mentioned actions without due process of law. Hence, such shameful USPS

activities are a flagrant illustration, an unabashed example, and a heinous instance of a USPS kakistocracy.

Resptctfully submitted,

Ralph timberlake

Along with the dropping of the atomic bombs on Hiroshima and Nagasaki being immoral and illegal, it was also completely unnecessary because Japan was already defeated. The horror that we, the United States of America, deliberately and unnecessarily killed so many thousands and thousands of civilians is shameful and our dear country won't be clean until it expresses honest regret for this atrocity.

1210. Wendy Fast (*zip code: 14437*)

How many nuclear horrors do we need before we've had enough? What about your campaign promise?

We want and need nuke-free.
